

Call Your Radiological Control Technician....

- ✓ before entering a Radioactive Material Area if you **do not** have Rad Worker Training (EHS 400/432) and your name is not on the radiological work permit (RWP),
- ✓ if your work exposes any previously unexposed surface or you are accessing overhead spaces in any building specified in the RWP or on the Site Wide Call Sheet, or
- ✓ if you have any questions regarding access to areas that may contain radioactive materials.

For more information, contact Robert Fairchild (x2278) or Mike Dupray (x5642).
